

- As a result of the project, the limited amount of water available in the village of Mal will be about 25 times greater and the village will have a reliable water supply
- „The water supply systems make operation of a new laundry house and bath-house possible, improve public hygiene and encourage people to have a positive outlook“

Martin Steinemann, Baugewerbliche Berufsschule Zürich

- LC Lägern and Baugewerbliche Berufsschule Zürich took over the local project support function in 2003
