Project No. 27

**+GF+** "Adding Quality to People's Lives"

- The water supply system in the Riom Parsonz region, Graubünden, is being rehabilitated in order to safeguard and improve water quality for people in the area
- „The work done by Georg Fischer trainees and the support provided by the company have enabled us to construct a spring catchment and distribute water throughout the community of Riom“  
Gaudenz Carisch, Community of Riom
- The community of Riom Parsonz, in cooperation with the GF / SIG Training Centre, will take over the local project support function in 2004
